BOARDING YOUR PET WITH US IS SAFE AND EASY

We offer indoor kennels - with outdoor access- for dogs. For our feline guests, we offer private, roomy cat condos.

Individual play and once-a-day exercise sessions are available for both dogs and cats. Cats have a large "outdoor" atrium for play time. Dogs have big play yards with real grass.

We have a limited number of kennels. This allows us to provide more individual attention and one-on-one time with your pet.

For the health and safety of our guests, all dogs and cats must be current on their vaccinations prior

to their stay with spcaLA. Written proof that vaccinations are current and have been administered by a licensed veterinarian at least one week prior to

check-in is required. Dogs must be current on Rabies, DHLPP and Bordetella; cats must be current on FVRCP and Rabies.

We offer affordable competitive pricing. The basic daily fee includes a play session and premium food.

Plan your pet's stay with us in advance. We recommend making your reservation with us one month before your drop off date.

Boarding services are available to only active* spcaLA donors at the seventy-five (\$75) U.S. dollar level or greater. To become a donor, please call our Fund Development Dept. at 323-730-5300, x233.

*To be an active donor, you must have donated a total of seventy-five (\$75) U.S. dollars within twelve months prior to the first day of boarding.
